Maintaining Your Independence

## PRODUCT RANGE

Sales - Hire - Service - Repair

0191 251 2444 [travelabilityukltd.co.uk](http://travelabilityukltd.co.uk) 0191 447 1150

**TravelAbility UK** is a family-run business with over 50 years combined experience. We pride ourselves in offering first-class, personal customer service.

At our stores in Whitley Bay and Wallsend, we stock the very latest mobility aids, including scooters, powerchairs, wheelchairs, stairlifts, and daily living aids for in and around the home.

We can help you gain back your independence by choosing one of our specialised products and the good news is you don't even have to leave your home. What's more, we offer finance on all our scooters and powerchairs,\* so there is no need to pay the full amount up front. (Ask in store for details).

All of our products are competitively priced, and we have an excellent track record of providing exceptional aftercare making TravelAbility UK the no. 1 mobility aid provider in the area.

Our engineers are based in store and out on the road so they can carry out services and repairs at your home.

If you would like to arrange a **free, no obligation home visit** for you to try out any of our scooter and powerchair range or any other mobility products, **please give us a call Whitley Bay 0191 251 2444 or Wallsend 0191 477 1150** and a member of our staff will happily arrange this for you.

# BOOT / PAVEMENT SCOOTERS

Boot Scooters are lightweight and perfect for those wanting to stay local or go on longer day trips and holidays. They can be easily dismantled without tools or folded to make them fully transportable in the car boot, take on coaches, aeroplanes and cruise ships.

All boot scooters (except the eFOLDi) have a maximum speed of 4 mph with a range from 6 to 15 miles and are to be used on the pavement.

We offer a wide range of styles and colours to suit everyone.

Please feel free to visit or contact one of our stores if you have any questions or to arrange a free no obligation test drive.

## eFOLDi

**Range:** up to 14 miles

**Weight Capacity:** 19 st

**Speed:** 4 or 8 mph

**Size:** L 116 cm x W 56 cm

**Total Weight:** 17 kgs

**Available Colours:** Space Grey

Folds into a suitcase.

eFOLDi is a unique, high quality collapsible electric scooter, which combines the durability and range of a mobile vehicle with an innovative light-weight design of an urban transporter suitable for travelling on all types of transport.

Engineered with one mission, to help everyone enjoy their travelling!

Equipped with the Lightweight Pro Li-ion battery, Super Power brushless motor and Auto Forged 6061 aluminium components, the ingeniously designed eFoldi weighs only 17kg, and can be neatly folded to a wheeled suitcase shape to be packed into a car boot or taken onto public transport, on cruises, aeroplanes and beyond. It can easily be stored indoors due to its incredibly small size when folded.

With the complete peace of mind that you are buying a British product from a UK company with full after-sales support and servicing, you can be confident of many years' enjoyment from your eFOLDi.

The eFoldi has a key switch to turn it on and off, as well as a key to secure the battery pack. There are two battery packs to choose from:

The FarReach battery pack (supplied as standard) is designed for long range, weighs 1.8 kilograms (3.9 pounds), and can take you up to 22 kilometres (14 miles) on a full charge.

## EASY-GO

**Range:** up to 10 miles

**Weight Capacity:** 18 st

**Speed:** 4 mph

**Size:** L 93 cm x W 48.5 cm

**Scooter Weight:** 25.6 kgs

## eFOLDi LITE

**Range:** up to 14 miles

**Weight Capacity:** 19 St

**Speed:** 4 mph

**Size:** L 110 cm x W 53 cm

**Total Weight:** 15 kgs (12 kgs without wheels & Battery)

**Available Colours:**

Folds into a suitcase

eFOLDi Lite is safe to use on pavements and sidewalks.

Thanks to its ultra-small turning circle, you can access shops, offices and buses with ease, and maneuver in and out of the tightest of spaces.

eFOLDi Lite can be neatly folded into a piece of luggage and unlike a conventional mobility scooter, it can easily be carried in the trunk of any car and taken on public transport. To enable those who love to travel, our battery is designed to be air safe, which is permitted to be taken into the cabin by all major airlines. Most airlines allow each mobility scooter user to take x2 air safe batteries (less than 300WH each). So that you can take your eFOLDi with you almost anywhere in the World!

Operating the eFOLDi Lite is simple. To unfold, just open one latch, release a pin and roll it out. Users of any age can master it within minutes of practice. And it is just as easy to drive.

## RHINO

**Range:** up to 15 miles  
**Weight Capacity:** 26.7 st  
**Speed:** 4 mph  
**Size:** L 120 cm x W 54 cm

The Travelite Alloy style wheels, detachable frame design and a comfortable folding seat aiding for a smoother more enjoyable journey. The Travelite is the perfect travel partner, helping you get where you need to go.

## 4 MPH LARGE SCOOTERS

Suitable for first-time users, pavement scooters have a maximum speed of 4 mph and are a good mid-size scooter, ideal for someone who doesn't want a large scooter, but who still wants advanced features. Their compact size and lower speed make them easier to manoeuvre, making them practical for crowded spaces.

These scooters have a distance range of up to 25 miles, so they are suitable for everyday, short trips and longer journeys.

As these scooters can only be driven on pavements and pedestrian areas, they don't need to be registered with the DVLA.

We offer a wide range of styles and colours to suit everyone.

Please feel free to visit or contact one of our stores if you have any questions or to arrange a free no obligation test drive.

## VOYAGER

**Range:** 24 miles

**Weight Capacity:** 21 st

- Padded and fold down backrest.
- Anti- tipping wheels at rear.
- Angle adjustable tiller.
- Flexible seat slider.
- USB Charging Port.

## CHICAGO

**Range:** up to 20 miles

**Weight Capacity:** 21 st

**Speed:** 4 mph

**Size:** L 119 cm x W 61 cm

**Scooter Weight:** 89 kgs

**Available Colours:** Red or blue

- Maintenance free batteries - No 'topping up' required.
- 4amp battery charger - Safely, quietly and efficiently charges batteries.
- Regenerative braking system at rear.
- Floor mats - Protects body work from undue wear.
- Easy to use ignition key provides added security.
- Straight handlebar (delta handlebar upgrade) for simple and intuitive steering
- Can change throttle lever left to right vice versa.
- Captains seat allows good posture so you are relaxed and in control.
- 360-degree seat swivel (3 'o'clock or 9 'o'clock to remove)
- Clear and user-friendly control panel (shower proof).
- Charging point on tiller.
- Removable shopping basket

The Chicago has four wheels for a smooth comfortable ride. It comes with the option of solid tyres to give peace of mind when out and about enjoying your day.

The 360 degree seat swivel makes it much easier to access the scooter anywhere. With a ground clearance of 2.5" / 6cm, it easily copes with most pedestrian surfaces indoors and out.

The Chicago has 36 amp batteries (can upgrade to 50 amp) ensures good performance and range.

# ROAD / PAVEMENT SCOOTERS

Suitable for those who would like the choice to travel on the road and on the pavement. The range on these scooters is larger due to the battery size.

Its powerful motor, allows for travelling longer distances and larger weight capacity.

All have a modern, stylish design and have been described as the modern way to travel.

We offer a range of styles and colours to suit everyone.

Please feel free to visit or contact one of our stores if you have any questions or to arrange a free no obligation test drive.

Complete with user manual, spare key and automatic battery charge this Scooter is ready to go!

# POWER CHAIRS

Anyone at any age or size might need the use of a wheelchair at some point in their lives. The greatest advantage of a power wheelchair is the ease and convenience it supplies.

Even though power chairs do have an electric motor, the controller is still the person in the chair. Some power wheelchairs are operated by the hands, some by the mouth or any other functioning body part. This is a great feature for those who don't have complete control of their hands or arms.

The variety of power chairs is also another advantage. We stock many styles which either fold or dismantle for ease of transportation.

We offer a wide range of styles and colours to suit everyone.

Please feel free to visit or contact one of our stores if you have any questions or to arrange a free no obligation test drive.

## JAZZY AIR 2

**Range:** up to 16.8 miles

**Weight Capacity:** 21.4 st

**Speed:** 4 mph

## G-LOGIC SELF-PROPELLED

**Weight Capacity:** 17.8 st  
**Seat dimensions:** W 45 x D 42 x H 54 cm  
**Chair width:** 67 cm  
**Total Weight:** 12 kgs  
**Available Colours:** Blue, orange, brown or red

The G-Logic is very lightweight (less than 12 kg!) And super convenient to take with you on travels, thanks to the fold-down back, detachable footrests, removable wheels, detachable upholstery and folding frame.

The unique thing about the G-Logic is that it can be assembled using three different frame colors and four different seat and back upholstery sets.

The G-Logic is available in the frame colors black, silver and white.

The Excel G-Logic is equipped with lightweight rear wheels with a new generation of polyurethane leak-proof tires. This means lower rolling resistance and this makes the G-Logic a lot lighter. The rear wheels are also removable.

With the design of the G-Logic, eye for detail certainly comes forward. For example, the G-Logic arm rests are height-adjustable. This is useful when the G-Logic has to be driven at the table. The backrest is half folded down, which is not only useful when carrying, but also when a jacket needs to be pulled on or off by the occupant.

## G-EXPLORER

**Weight Capacity:** 18 st

**Seat dimensions:** W 40/45/50 x D 43 x H 50 cm

**Chair width:** seat width + 22 cm

**Total Weight:** 15 kgs

**Available Colours:**

- Half-folding backrest
- Removable upholstery
- Adjustable footplate heel loops
- Ultra lightweight aluminium frame
- Swing-away and removable legrests
- Wide puncture proof front castor wheels
- Height adjustable push handles and armrests
- Quick release rear wheels with 24" mountain bike style tyres
- Quick release fold in one mechanism engaged by pulling the seat upholstery

Never be afraid to explore outdoor with the G-Explorer. With its 24 inch mountain bike tyres for all terrain, this wheelchair is designed for any adventure. Although not crash tested this wheelchair has been designed to easily fold and disassemble for transportation. With its ability to fit into almost any car boot, long drives are no hassle. The backrest angle has also been adjusted to give the user a more natural seating position; providing perfect precision lumbar support. To make attendant experience more comfortable, we have added height adjustable push handles so every adventure is just as enjoyable for both user and attendant.

## ORBIT LIGHTWEIGHT SELF-PROPELLED

**Weight Capacity:** 18.1 st

**Seat dimensions:** D 41 x W 41 cm

**Chair dimensions:** D 106 x W 67 cm x H 92 cm

**Total Weight:** 15 kgs

**Available Colours:** Silver

- Quick release rear wheels
- Lightweight aluminium construction
- Attendant brakes with locking handles
- Washable overseat and backrest pad
- Flip-up, detachable armrests
- Swing in/out detachable footrests with depth adjustable footplates

# ROLLATORS

Rollators are walking aids that feature large handles and breaking wheels, making them easy to control. We offer rollators with a seat and back that enable you to sit down if you need to rest. Rollators with bags or baskets are ideal to carry your shopping in and indoor rollators with trays are perfect for carrying drinks or household items from room to room.

Heavy duty rollators are available for anyone with a higher user weight and forearm support rollators are designed for those who cannot grip regular rollator handles. Many of the rollators have a folding design for easy storage.

Please feel free to visit or contact one of our stores if you have any questions or would like more information.

## TROJA

**Available Sizes:** Medium (M), Small (S)  
**Maximum User Weight:** M=150kgs, S=125 kgs  
**User Height:** M=150-200 cm, S=135-170 cm  
**Handle Height:** M=78-100 cm, S=78-81 cm  
**Total Weight:** M=5.5 kgs, S=5.1 kgs  
**Available Colours:** Capri blue, pink rose, wine red, white, dark grey or silver grey

The innovative new Troja 2G stands ahead of the competition with increased levels of safety, flexibility and comfort.

The rollator is tested and approved according to TÜV NS-EN ISO 11199-2 (standard for security and quality for rollator) and EN ISO 10993-1 (standard for biocompatibility).

The Troja 2G Premium has 7-year warranty (except for parts that are exposed to natural wear and tear).

## FEATHERLITE

**Available Sizes:** one size  
**Maximum User Weight:** 21.4 st  
**User Height:** 135 - 190 cm  
**Handle Height:** Adjustable  
**Total Weight:** 5.45 kgs  
**Available Colours:** Metallic grey, gunmetal, metallic black, midnight purple, graphite blue or flame red

The Featherlite Rollator is incredibly light and easy to handle, this is due to its robust lightweight aluminium frame and easy folding mechanism meaning it is suitable for both outdoor and indoor use. Quick release wheels enables the rollator to fold down to a very compact size for storage, whilst the wide backrest and seat offers great comfort and back support. The Featherlite Rollator with its stylish looks and design is available in a range of contemporary colours, it also comes with a large storage bag together with a locking clip for storing when folded. The locking arthritic loop brakes enable the user to swiftly and easily apply the breaks, not to mention the handle height being quick and easy to adjust.

## ROLLZMOTION

**Available Sizes:** Medium (M), Small (S)  
**Maximum User Weight:** 19.6 st  
**User Height:** M=160-190 cm, S=150-185 cm  
**Handle Height:** M=87-102 cm, S=82-95 cm  
**Total Weight:** 10.7 kgs  
**Available Colours:** Matt black, deep purple, Island blue or pebble white

The Rollz Motion<sup>2</sup> is a rollator and wheelchair in one which provides many new opportunities to the user.

Developed and manufactured by the Dutch company Rollz, the Rollz Motion<sup>2</sup> is an ergonomically designed, combined rollator, with a strong but light frame, which makes it possible to walk safely and comfortably upright.

If the user requires a brief rest, the rollator can easily be transformed into a wheelchair, and then back again to a rollator. The seat of the rollator/wheelchair has been designed to offer increased comfort.

The Rollz Motion<sup>2</sup> comes with a 5-year warranty on the frame and a 2-year warranty on other parts excluding normal wear and tear.

## TRI-WALKER - OPTION 1

**Available Sizes:** one size

**Maximum User Weight:** 19.5 st

**Height:** 69 cm

**Total Weight:** 5 kgs

**Available Colours:** Blue, Ruby Red, Purple, Graphite, Quartz, and Russet Orange

Ergonomic hand grips and adjustable height handles allows for optimum comfort and convenience. Loop Lockable Brakes provide added security and convenience, the brake tension can also be easily adjusted to suit your requirements. Folds easily for storage or transport using the simple easy to grab pull handle.

**Supplied with vinyl bag as standard.**

## TRI-WALKER - OPTION 2

**Available Sizes:** one size

**Maximum User Weight:** 20 st

**Height:** 86 - 99 cm

**Total Weight:** 4 kgs

**Available Colours:** Blue or Purple

- Lightweight aluminium frame.
- Adjustable height handles.
- Comfortable ergonomic hand grips.
- Lockable loop brakes.
- 20 cm solid wheels.
- Swivel front castors for manoeuvrability.
- Folds for storage and transportation.
- **Supplied with black vinyl bag.**
- Available with the option of a clip on basket and/or tray.

## FEATHERLITE CARBON FIBRE

**Weight:** 5.8 kgs  
**Available Sizes:** 3 sizes  
**Maximum User Weight:** 23.6 st  
**Handle Height:** 74-102 cm  
**Total Weight:** 5 kgs  
**Available Colours:** Black & grey

The Featherlite Carbon Fibre has a frame made of carbon fibre and aluminium, making it one of the lightest rollators on the market today starting from just 5.8Kgs. Although very light, it offers a high degree of stability coupled with extreme ease of movement.

The push handles are height-adjustable with an easy to read numerical marking and a simple thumb turn lock. It features a textile seat and padded back strap, and a locking system that stops

it reopening once folded. The large 8" smooth-running wheels are equipped with 2 brakes for optimum speed control that are also lockable for parking. The detachable bag has a load capacity of 5Kgs and can also be used as a convenient shopping bag. The Rollator is tested and approved for a user weight of up to 150kgs.

## U MOTION

**Available Sizes:** one size  
**Maximum User Weight:** 19.7 st  
**User Height:** 150 - 185 cm  
**Handle Height:** 79-98 cm  
**Total Weight:** 10 kgs  
**Available Colours:** Blue

The uMotion offers a rollator solution for people who require something more than a standard rollator for example when someone has Parkinson's disease or other neurological conditions.

The uMotion has been developed and manufactured by the Dutch company Villeris.

The braking system is always activated and only released when one or both of the brake handles are squeezed.

The reversed braking system can also be operated with one hand and is safe to stand, up and sit down.

The rollator has a u-shaped frame, which ensures good stability and encourages correct posture while the small wheels at the bottom end help rolling the rollator over kerbs and doorsteps without tilting. Its nibble style allows for a small turning circle, proving extremely convenient for small rooms such as the bathroom. This sophisticated rollator has an integrated, adjustable drag brake for increased control. An optional laser light can be added to overcome 'freezing' episodes.

# WALKING FRAMES

Walking frames – with the option of front ferrules or wheels, walking frames offer support when moving around your home. Heavy duty frames are suitable for anyone with a higher user weight and forearm walking frames are available if you're living with limited grip. We also offer a range of folding walking frames that are easy to store and transport. Walking frames are height adjustable to suit different requirements and you can choose between multiple widths and sizes.

Please feel free to visit or contact one of our stores if you have any questions or would like more information.

## READY SET GO

**Available Sizes:** one size fits all  
**Maximum User Weight:** 21 st  
**Height:** 75-93 cm  
**Total Weight:** 3 kgs  
**Available Colours:** Red

Easily folds tool free to 1/2 the size of a traditional folding walker and can be stored in the "Ready Set Go" bag provided for transportation. Easily unfolded and height adjusts tool free to suit height of the user. Comes with 13cm (5") front wheels and rear glide skis that are ideal for most surfaces. Two side storage pouches with large pockets for personal items are held in place by velcro tabs at both sides of the frame. Sturdy 2.5cm (1") diameter anodized, extruded aluminium construction ensures maximum strength while remaining lightweight for ease of use.

## FOLDING WALKING FRAME

**Available Sizes:** one size fits all  
**Maximum User Weight:** 28 st  
**Height:** 81 - 99 cm  
**Total Weight:** 3 kgs  
**Available Colours:** Silver

Lightweight walking frame is suitable for indoor and outdoor use. Excellent folding mechanism for easy storage and transportation. Easy push button mechanisms may be operated by fingers, palms or side of hand depending on users hand strength and dexterity. Each side operates independently to allow easy movement through narrow spaces and greater stability while standing. Unique U-shape frame design creates greater clearance. The patient is able to bring the walker closer to assist in standing. Vinyl contoured hand grips for added comfort. Non-slip, non-marking ferrules on front and rear legs provide additional stability.

# RISE & RECLINE CHAIRS

We offer an extensive range of Riser Recliner Chairs. These chairs have 2 key functions; they rise to assist the user standing up from the chair, and recline to allow the user to achieve lying position.

Please feel free to visit or contact one of our stores if you have any questions or would like more information.

## WENDOVER

**Motor:** Dual motor

**Width:** 58.42 cm

**Seat Width:** 46 cm

**Seat Depth:** 44.45 cm

**Seat Height:** 71 cm

**Seat Width:** 46 cm

**Weight Capacity:** 25 st

**Upholstery:** vinyl or fabric

**Available Colours:** brown (vinyl only)

Merino Latte or Merino Fresh

The Wendover dual motor lift chair operates the backrest and footrest separately, using a dual motor design. It's available in a range of different fabrics. Also featuring a built in USB charger and LED control system.

## WILLOW

**Motor:** dual motor

**Width:** 85cm

**Depth:** (Reclined) 85.5 cm (160cm)

**Height:** 105 – 138 cm

**Seat Width:** 54 cm

**Seat Depth:** 50 cm

**Seat Height: (Front)** 50 cm

**Armrest Height:** 61 cm

**Armrest Width:** 14.5 cm

**Supported Weight** 21.5st / 136.5kg

## CAMBERLY

**Motor:** Dual motor  
**Width:** 75 cm  
**Depth:** 96.5 cm  
**Seat Width:** 48 cm  
**Seat Depth:** 51 cm  
**Seat Height:** (Front) 50 cm  
**Weight Capacity:** 25 st  
**Upholstery:** fabric  
**Available Colours:** Granite, latte or chocolate

The Camberly is a new cost effective lift chair from Pride Mobility Products Ltd. The dual motor design allows you to rise or recline to find your perfect position. Featuring a hand stitched, deep waterfall back the Camberley provides you with ultimate comfort and quality, which suits any living room environment. Also featuring a built in USB charger and LED control system.

**Matching suites are available**

## HARMONY

**Motor:** dual motor  
**Sizes:** Compact (W 79 x H 103 x D 94)  
 Regular (W 84 x H 108 x D 94)  
 Grand (W 89 x H 108 x D 94)  
**Upholstery:** Plain, stripe, check, geometric, semi-plain, floral, medallion and wool  
**Available Colours:** Extensive range of colours

The Harmony Lift & Rise chair, with its smart styling and superb comfort, is available in a wide choice of fabrics and with an optional faux leather trim to the front of the arm, helping with durability and grip. The design incorporates a multi-positional reclining mechanism, helping you to lower more easily into, and rise out of, this extremely comfortable chair which operates via a simple hand-set which is kept tidily in a side pocket. Harmony is available in standard, grand and compact sizing.

Harmony is available as a mains operated chair, or, for an extra level of freedom, a battery powered chair, which, once charged (typically overnight) will operate for approximately one month without trailing cables. The battery operated chair can then be placed anywhere - in the perfect TV viewing position, facing a window with a lovely view or even out on the patio on a sunny day, no need to be near a power socket.

# STAIRLIFTS

Stairlifts are a great option to enable you to keep your beloved home by giving you the independence to move freely up and downstairs.

We have several options of stairlifts, each designed to suit you and your home, and we can even provide outdoor stairlifts for apartments.

With many options of colour, fabric and rails, we can ensure that your bespoke, quality stairlift will fit in with your décor.

All our stairlifts have low running costs and do not require redecoration or repairs.

Please feel free to visit or contact one of our stores if you have any questions or to arrange a FREE Stairlift home survey and quote.

## STRAIGHT STAIRLIFT

- Fits quickly and easily to the stairs, not the wall
- Requires no structural changes to your home
